AMERICAN AGRICULTURIST CLASSIFIED BUSINESS DIRECTORY

Making it Hot for Other Folks is Our Business

Every Year We Put in
More Heaters
Than the Year Before
Why?

We do not under radiate. We use ample sized boilers. An installation of liberal proportions, is economical in fuel. The heaters we have installed give satisfaction; for example, the heating system in the Lurie block, the largest store in our village, is the third we have installed for M. Lurie.

Equip Your Kitchen with an Andes range a Hastings kitchen cabinet, and our line of Lisk guaranteed enamel ware.

Select your quality china set from the variety of wares we sell.

You will save yourself a deal of labor when you purchase our low priced vacuum cleaner.

The comfort you will get from the bath room, we will install for you at a living price, will make you wonder why you did not buy it before.

Be sure to call on us when you need roofing and tinning.

Do not fail to take advantage of the parcel post.

On the Farm Modernize Your Home

Every building on the farm can be modernized and brought right up to date at small cost by the use of Cornell-Wood-Board. Start with the farm house.

Cornell-Wood-Board

For Walls, Ceilings and Partitions

Nails direct to the studding or right over old walls and stays there permanently; cost of application is very reasonable compared with other materials; takes paint or kalsomine perfectly.

It is specially adapted for dairy barns, milk houses, hen houses, basements and porch ceilings.

GUARANTEE

Cornell-Wood-Board is guaranteed not to warp, buckle, chip, crack or fall.

Manufactured by the Cornell Wood Products Co.
 (C. O. Frisbie, President), Chicago and sold by the
 dealers listed here. Ask for free plans.

Good Books for the Fruit Grower and Dairyman

The keen business farmer realizes the value of reading good books, not only for the information that they contain, but for the inspiration to be gained. The following list will prove most valuable to the man who wishes to increase the productiveness of his land as well as increase his income.

DAIRYING

The Manufacture of Ice Creams and Ices By H. Frandsen and E. A. Markham. This book should be of vital interest to all ice cream makers, dairymen and dairy students. Everything of importance concerning this industry has been included, and the matter is arranged in a clear, practical way. It will be welcomed by thousands as a standard authority on the subject. Profusely illustrated. 5½x8 inches. 350 pages. Cloth. Net \$2.00

The Business of Dairying. By C. B. Lane. This book aims to present in a clear and concise manner various business methods and systems which will help the dairyman to reap greater profits. It meets the needs of the average dairy farmer and if carefully followed will lead to successful dairying. Illustrated. 5x7 inches. 300 pages. Cloth.....Net \$1.25

First Lessons in Dairying. By H. E. Van Norman. Embodies the principles involved in the handling of milk, delivery to factory, shipping station, and the manufacture of butter on the farm. Written in a simple, popular way. Just the thing for the everyday dairyman. Illustrated. 5x7 inches. 100 pages. Cloth. Net \$0.50

Modern Methods of Testing Milk and Milk Products. By L. L. Van Slyke and C. A. Publow. A treatise on the various methods of testing milk and cream are handled with rare skill and yet in so plain a manner that they can be fully understood by all. 286 pages. 5x7 inches. Cloth.....Net \$1.00

The Science and Practice of Cheese Making. By L. L. Van Slyke and C. A. Publow. A treatise on the manufacture of American cheddar cheese and some other varieties; prepared also as a handbook and work for reference for the daily use of practical cheese-makers in cheese factory operations. Illustrated. 5x7 inches. 520 pages. Cloth.....Net \$1.75

Questions and Answers on Butter Making. By C. A. Publow. The entire subject of butter making in all its branches has been most thoroughly treated, and many new and important features have been added. Illustrated. 5x7 inches. 100 pages. Cloth.....Net \$0.50

Questions and Answers on Milk and Milk Testing. By C. A. Publow and H. C. Troy. No other treatise of its kind is available, and no book of its size gives so much practical and useful information in the study of milk and milk products. Illustrated. 5x7 inches. 100 pages. Cloth. Net \$0.50

Castration of Domestic Animals. By F. S. Schoenleber, M.S., D.V.S., M.D., and R. R. Dykstra, D.V.M. A practical treatise on the castration and spaying of farm animals. The authors have brought together in this volume all

the methods in use in America as well as in Europe. This book is the most comprehensive work on the subject that has yet been published. Profusely illustrated. 5x7 inches. 150 pages. Cloth. Net \$1.25

FRUIT CROPS

Plant Propagation, Greenhouse and Nursery Practice. By M. G. Kains. A standard work for nurserymen. Containing directions for propagation of fruits, vegetables, plants, etc. Also chapters on germination, seed testing, grafting, budding, nursery management and the laws affecting nursery stock, etc. 342 pages. Illustrated. 5½x7½ inches. Cloth.....Net \$1.50

The American Peach Orchard. By F. A. Waugh. This is the latest and best work on the culture of peaches. Contains full directions for propagation, culture, etc. Illustrated. 5x7 inches. 250 pages. Cloth.....Net \$1.00

The American Apple Orchard. By F. A. Waugh. In this book chief prominence has been given to the modern commercial methods as practiced in large and up-to-date orchards. At the same time the family orchard is not neglected, for special treatment of this subject has been given. Illustrated. 5x7 inches. 226 pages. Cloth. Net \$1.00

Beginners' Guide to Fruit Growing. By F. A. Waugh. This book is written for the beginner. A simple statement of the elementary practices of propagation, planting, culture, fertilization, pruning, spraying, etc. It is a primer for beginners. Illustrated. 5x7 inches. 120 pages. Cloth. Net \$0.75

Fruit Harvesting, Storing, Marketing. By F. A. Waugh. A practical guide to the picking, storing, shipping and marketing of fruit. No progressive fruit grower can afford to be without this most valuable book. Illustrated. 232 pages. 5x7 inches. Cloth.Net \$1.00

Citrus Fruits and Their Culture. By H. Harold Hume. In this volume, the author, one of the foremost experts in this line, has covered very fully the entire subject, scientifically and practically, treating on their botany, history, varieties, culture, diseases, insects, literature, etc. etc. Illustrated. 5x7 inches. 597 pages. Cloth. Net \$2.50

American Fruit Culturist. By J. J. Thomas. Containing practical directions for the propagation and culture of all of the fruits adapted to the United States, including large and small fruits, as well as sub-tropical and tropical fruits. Illustrated. 758 pages.....Net \$2.50

Foundations of American Grape Culture. By T. V. Munson. This is a practical work upon American grapes, suited to all sections of the country. It will be a fine money-maker to every practical vineyardist who reads it. Illustrated. 7½x10 inches. 250 pages. Cloth.....Net \$2.00

Every Farmer Needs These Books

The secret of success in farming is KNOWING why your neighbor gets better results than you do. It is because he KNOWS and you do not, because he has studied the subject and you have not. If you want to KNOW, read the following books. They will show you HOW TO GET results.

Farmers' Cyclopedia of Agriculture. By Wilcox & Smith. A thoroughly up-to-date, practical, concise and complete presentation of the whole subject of agriculture. Farm, Orchard and Garden Crops, Animals, Feeding, Dairying, Poultry, Irrigation, Drainage, Fertilizing, Spraying, etc., etc. 700 Pages.....\$3.50

Fertilizers and Crops. By L. L. Van Slyke. A timely presentation of facts, not only giving practical methods for using fertilizers in crop growing, but placing special emphasis on the reasons underlying their use, etc. Net.....\$2.50

Soils. By C. W. Burkett. The most complete and popular work of the kind ever published....\$1.25

The Cereals in America. By Thos. F. Hunt. A comprehensive treatise of wheat, maize, oats, barley, rice, kaffir corn, buckwheat, etc....\$1.75

Farm Manures. By C. E. Thorne. A practical and most valuable work on manures and manuring, covering every phase of the subject. Net \$1.50

The Book of Alfalfa. By F. D. Coburn. This is by far the most authoritative, complete, and valuable book on this forage crop ever published. \$2.00

The Study of Corn. By V. M. Shoesmith. A most helpful book to all interested in the selection and improvement of corn.....Net \$0.50

Farm Grasses of the United States. By W. J. Spillman. Seeding and management of meadows and pastures. Varieties of grasses for different climates and requirements.....\$1.00

The Young Farmer; Some Things He Should Know. By Thos. F. Hunt. This book is of unusual excellence. It should be in the hands of every farmer, especially the young farmer. Net \$1.50

Plant Propagation, Greenhouse and Nursery Practice. By M. G. Kains. A standard work for nurserymen. Containing directions for propagation of fruits, vegetables, plants, etc. Also chapters on germination, seed testing, grafting, budding, nursery management and the laws affecting nursery stock.....Net \$1.50

Weeds of the Farm and Garden. By L. H. Pammel. This book contains practical suggestions for the treatment of weeds, which should make it of special value to the farmer, landowner, gardener, etc.....Net \$1.50

Vegetable Gardening. By R. L. Watts. Complete, concise and authentic book. It covers every phase of vegetable gardening, and is invaluable as a handbook for practical growers.....Net \$1.75

Beginners' Guide to Fruit Growing. By F. A. Waugh. A simple statement of the elementary practices of propagation, planting, culture, etc. Net \$0.75

American Apple Orchard. F. A. Waugh. A manual for the novice as well as a book reference for all those of more experience. Every detail connected with the successful cultivation of the apple is thoroughly explained.....Net \$1.00

American Peach Orchard. F. A. Waugh. This is the latest and best work on the culture of peaches. Contains full directions for propagation, culture, etc.....Net \$1.00

The Business of Dairying. By C. B. Lane. Covers the practical side of dairy farming, and takes up every detail of this business thoroughly and systematically.....\$1.25

Swine in America. By F. D. Coburn. Every phase of hog raising is considered from the practical standpoint. The book is worth much to anyone interested in raising hogs, whether on a large or small scale.....\$2.50

Management and Feeding of Sheep. By Thos. Shaw. A valuable treatise on sheep for American farmers on breeds, breeding, feeding, management, diseases, etc.....\$2.00

Farmers' Manual of Law. By H. E. Willis. This book not only tells farmers how to settle their legal wrongs, but it tells them how not to commit any legal wrongs. The most complete book on the subject.....Net \$2.00

A Living from Eggs and Poultry. By W. H. Brown. A book for beginners who have a limited amount of capital and experience. A simple definite plan giving all details from hatching time to the time the produce is marketed. Net \$0.75

American Agriculturist

Charles William Burkett Editor. Subscription Price \$1.00 a Year.

The one weekly agricultural NEWSPaper. First of all it is devoted to the NEWS of agriculture. It reports what is going on. It reveals underlying conditions that forecast the influence that will affect agriculture. It reports the changing conditions that confront the farmer and the various branches of his business, as well as his family and social interests.

Its original, exclusive and comprehensive crop reports are a feature of AMERICAN AGRICULTURIST. These reports are the accepted authorities among the producing, transportation, distributing, mercantile and consuming interests. The Orange Judd crop reports are considered more reliable than the government reports, while much more prompt and newsy.

We tell the news about crop conditions, market influences, etc., from one week to a month or more earlier than does the government. AMERICAN AGRICULTURIST is quoted more widely by the daily press and other newspapers than probably all other farm weeklies put together.

In addition to crop and market news, AMERICAN AGRICULTURIST reports weekly what is going on among the farmers, describes the doings of their organizations, and gives the news about whatever is happening in each and every branch of agriculture in the respective sections.

As an agricultural NEWSPaper, AMERICAN AGRICULTURIST therefore is unique.

None other of the farm press even attempts anything approaching our adequate crop reporting service. During the summer and autumn months, the Orange Judd reports have been the first, the most complete and the authoritative statement of all that was known of the situation from week to week pertaining to the staple crops: Wheat, corn, oats, cotton, hay, tobacco, potatoes, apples. Also all special crops, such as small fruits, vegetables, cranberries, onions, milk, butter, cheese, eggs, rye, barley, buckwheat, rice, etc. Our comprehensive inquiries reveal the relation of agriculture and other fundamental conditions to general business and all industry. Notable examples of this service appear in each issue.

Special Service to Advertisers and Subscribers

Orange Judd service bureau also performs a service to our subscribers and advertisers which may be likened to what Dun and Bradstreets do for their clients, among merchants, manufacturers and bankers.

We give our subscribers and readers SERVICE. We co-operate with them to enable our advertisers to better serve our subscribers and readers, and thus make the advertising columns of AMERICAN AGRICULTURIST of larger usefulness from month to month and year to year to each and every subscriber, reader and advertiser.

The publisher executes a bond of confidence with each subscriber in which we guarantee the reliability of each advertiser and advertisement admitted to AMERICAN AGRICULTURIST.

We seek to build up agriculture, to promote rural life, to foster legitimate business and to insure general prosperity. We strive to build up instead of tear down.

The Standard Authority

upon the technique of agriculture and home interests, AMERICAN AGRICULTURIST is preserved for reference and study as the standard authority upon the best methods of doing the various operations on the farm and in the home.

It constitutes a technical magazine of agriculture, a weekly authoritative encyclopedia of all branches of farming and of home interests.

Most Carefully Read

Our subscribers and their folks eagerly wait the coming of AMERICAN AGRICULTURIST, to get its news in all phases of agriculture, its crop reports, its market forecast, its price quotations.

They study it for reliable and authoritative information upon the technique of work on the farm or in the home.

They preserve it as the standard authority for constant reference.

Explanation

The information in this Directory is arranged as follows: 1st, Last name of individual followed by first name and second name initial (if there is a second initial.) 2nd., Wife's name (if married) in parenthesis. 3rd., The number of children living at home. (Example, 3mch means 3 children under 21, 3ach means 3 children over 21.) 4th., Name of Individual's farm, if it has a name. 5th., The individual's business or occupation. 6th., The chief crop or specialty. (Example, grain, poultry, apples or potatoes, means that these are the specialties of the individuals to whom they refer.) 7th., Refers to the property upon which individual has residence, O (figure a) designates number of acres in farm owned. O H & L means owns house and lot. T (figure a) designates number of acres in farm for which money rent is paid. T H & L means tenant house and lot. W O S (figure a) designates number of acres worked on shares. 8th., Is the number of the rural delivery route or street address and postoffice from which mail is received. 9th., Is the name of the township in which individual lives. 10th., H (figures) designates the highway on which individual has residence (see map.) Explanation: After the name of Allen, Adams, farmer, rd 1, Ravena, Coeymans Township (In Albany County) appears H8. Now refer to map and you will find that the road numbered 8 in Coeymans Township is the road upon which Mr. Allen has his residence. By this plan you can locate any farm included in this book. The abbreviations appearing after the highway number pertain to the telephone which is B T for Bell telephone, and I T for Independant telephone, etc.

Abbreviations

**Over \$10,000,000 Assets
Over 19,000 Depositors**

THIS National Bank, has been serving this community since 1865. It has nearly 20,000 satisfied depositors and an increasing amount of assets. These facts are the best endorsement of its business methods.

Many out of town individuals, firms, corporations and organizations keep their check accounts here. Others have deposits in our interest department.

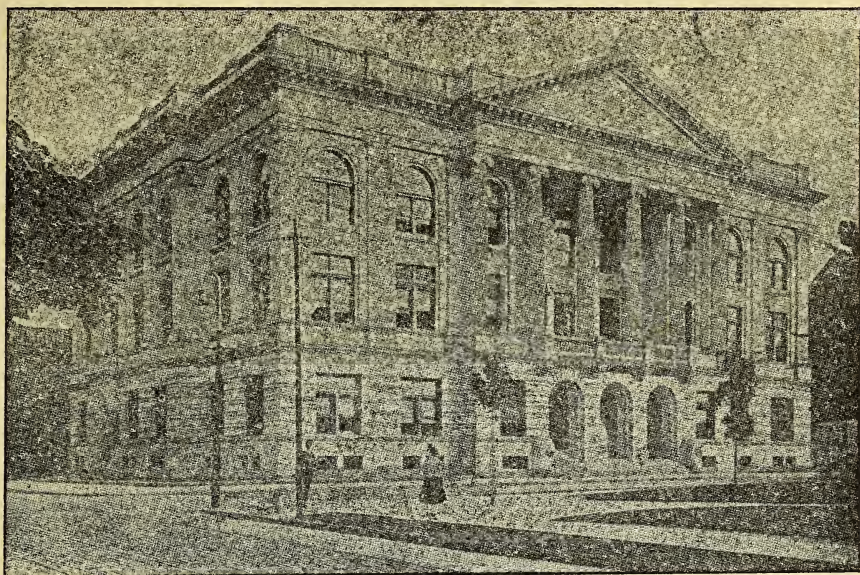

The steady growth of the Liberal Interest Department proves its value to depositors of both large and small amounts.

Your personal, phone, or written request for information will receive immediate attention.

Explanation

The information in this Directory is arranged as follows: 1st, Last name of individual followed by first name and second name initial (if there is a second initial.) 2nd., Wife's name (if married) in parenthesis. 3rd., The number of children living at home. (Example, 3mch means 3 children under 21, 3ach means 3 children over 21.) 4th., Name of Individual's farm, if it has a name. 5th., The individual's business or occupation. 6th., The chief crop or specialty. (Example, grain, poultry, apples or potatoes, means that these are the specialties of the individuals to whom they refer.) 7th., Refers to the property upon which individual has residence, O (figure a) designates number of acres in farm owned. O H & L means owns house and lot. T (figure a) designates number of acres in farm for which money rent is paid. T H & L means tenant house and lot. W O S (figure a) designates number of acres worked on shares. 8th., Is the number of the rural delivery route or street address and postoffice from which mail is received. 9th., Is the name of the township in which individual lives. 10th., H (figures) designates the highway on which individual has residence (see map.) Explanation: After the name of Allen, Adams, farmer, rd 1, Ravena, Coeymans Township (In Albany County) appears H8. Now refer to map and you will find that the road numbered 8 in Coeymans Township is the road upon which Mr. Allen has his residence. By this plan you can locate any farm included in this book. The abbreviations appearing after the highway number pertain to the telephone which is B T for Bell telephone, and I T for Independant telephone, etc.

American Agriculturist

Charles William Burkett Editor. Subscription Price \$1.00 a Year.

The one weekly agricultural NEWSpaper. First of all it is devoted to the NEWS of agriculture. It reports what is going on. It reveals underlying conditions that forecast the influence that will affect agriculture. It reports the changing conditions that confront the farmer and the various branches of his business, as well as his family and social interests.

Its original, exclusive and comprehensive crop reports are a feature of AMERICAN AGRICULTURIST. These reports are the accepted authorities among the producing, transportation, distributing, mercantile and consuming interests. The Orange Judd crop reports are considered more reliable than the government reports, while much more prompt and newsy.

We tell the news about crop conditions, market influences, etc., from one week to a month or more earlier than does the government. AMERICAN AGRICULTURIST is quoted more widely by the daily press and other newspapers than probably all other farm weeklies put together.

In addition to crop and market news, AMERICAN AGRICULTURIST reports weekly what is going on among the farmers, describes the doings of their organizations, and gives the news about whatever is happening in each and every branch of agriculture in the respective sections.

As an agricultural NEWSpaper, AMERICAN AGRICULTURIST therefore is unique.

None other of the farm press even attempts anything approaching our adequate crop reporting service. During the summer and autumn months, the Orange Judd reports have been the first, the most complete and the authoritative statement of all that was known of the situation from week to week pertaining to the staple crops: Wheat, corn, oats, cotton, hay, tobacco, potatoes, apples. Also all special crops, such as small fruits, vegetables, cranberries, onions, milk, butter, cheese, eggs, rye, barley, buckwheat, rice, etc. Our comprehensive inquiries reveal the relation of agriculture and other fundamental conditions to general business and all industry. Notable examples of this service appear in each issue.

Special Service to Advertisers and Subscribers

Orange Judd service bureau also performs a service to our subscribers and advertisers which may be likened to what Dun and Bradstreets do for their clients, among merchants, manufacturers and bankers.

We give our subscribers and readers SERVICE. We co-operate with them to enable our advertisers to better serve our subscribers and readers, and thus make the advertising columns of AMERICAN AGRICULTURIST of larger usefulness from month to month and year to year to each and every subscriber, reader and advertiser.

The publisher executes a bond of confidence with each subscriber in which we guarantee the reliability of each advertiser and advertisement admitted to AMERICAN AGRICULTURIST.

We seek to build up agriculture, to promote rural life, to foster legitimate business and to insure general prosperity. We strive to build up instead of tear down.

The Standard Authority

upon the technique of agriculture and home interests, AMERICAN AGRICULTURIST is preserved for reference and study as the standard authority upon the best methods of doing the various operations on the farm and in the home.

It constitutes a technical magazine of agriculture, a weekly authoritative encyclopedia of all branches of farming and of home interests.

Most Carefully Read

Our subscribers and their folks eagerly wait the coming of AMERICAN AGRICULTURIST, to get its news in all phases of agriculture, its crop reports, its market forecast, its price quotations.

They study it for reliable and authoritative information upon the technique of work on the farm or in the home.

They preserve it as the standard authority for constant reference.

Weights and Measures

LINEAR MEASURE

12 in. = 1 foot. 320 rods = 1 mile
3 ft. = 1 yard. 5,280 feet = 1 mile
5½ yds. = 1 rod. 3 miles = 1 league

The hand (4 in.) is used to measure horses' heights. The nautical mile is 6,086.44 ft. 1 knot is 1.1528 statute miles. 1 degree is 67.168 statute miles.

SQUARE MEASURE

144 square inches = 1 square foot
9 square feet = 1 square yard
30¼ square yards = 1 square rod
160 square rods = 1 acre
640 acres = 1 square mile

The side of a square having an area of an acre is approximately 208¾ feet.

SURVEYORS' MEASURE

7.92 inches = 1 link.
25 links = 1 rod
4 rods = 1 chain
10 sq. chains or 160 sq. rods = 1 acre
640 acres = 1 sq. mile
36 sq. m. (6 m. sq.) = 1 township

MEASUREMENT OF LAND

16½ feet.....1 rod
320 rods.....1 mile
66 feet.....1 chain
10 chains.....1 furlong
80 chains.....1 mile
5,280 feet.....1 mile
40 sq. rods.....1 rood
43,560 sq. feet.....1 acre
1 mile square.....640 acres
660 feet square.....10 acres
208 feet and 8½ inches square,
1 acre
933 feet and 4½ inches square,
25 acres

DRY MEASURE

2 pints = 1 qt. 4 pecks = 1 bushel
8 quarts = 1 peck

CUBIC MEASURE

1,728 cu. in. = 1 cu. ft.
27 cu. ft. = 1 cu. yd.
67.2 cu. in. = 1 quart dry measure
268.8 cu. in. = 1 standard gallon

LIQUID MEASURE

4 gills = 1 pint
2 pints = 1 quart
4 quarts = 1 gallon
31½ gallons = 1 barrel
2 barrels = 1 hogshead

APOTHECARIES' WEIGHT

20 grain = 1 scruple
3 scruples = 1 dram
8 drams = 1 ounce
12 ounces = 1 pound

AVOIRDUPOIS WEIGHT

16 drams = 1 ounce
16 ounces = 1 pound
14 pounds = 1 stone
100 pounds = 1 hundredweight
20 hundredweights = 1 ton
Long ton = 2,240 pounds, used mostly in Great Britain.

TROY WEIGHT

24 grains = 1 pennyweight
20 pennyweights = 1 ounce
12 ounces = 1 pound
1 carat in diamond measure =
3.2 troy grains

PAPER MEASURE

24 sheets = 1 quire
20 quires = 1 ream
2 reams = 1 bundle
5 bundles = 1 bale

MARINERS' MEASURE

6 feet = 1 fathom
120 fathoms = 1 cable length
5,280 feet = 1 stat. mile
6,085 feet = 1 naut. mile
7½ cable lengths = 1 mile

Statistics of the World

Area	196,900,000 sq. m.
Area of land	52,372,000 sq. m.
Area of fertile land,	28,270,000 sq. m.
Population	1,610,000,000 souls
Age of earth..	40 to 100 million years
Distance from sun	93,000,000 m.
Equatorial diameter	7,926.5 m.
Equatorial circumference,	24,902 m.
Polar diameter	7,809.5 m.
Density compared with water ..	5.55

CONTINENTAL AREA AND POPULATION

Continent.	Area in sq. m.	Population
Africa	11,515,000	130,000,000
America N..	9,323,000	115,000,000
America S..	6,889,000	45,000,000
Asia	17,057,000	900,000,000
Australasia ..	3,456,000	5,500,000
Europe	3,879,000	414,500,000
Polar Regions	253,000

APPROXIMATE AREA OF THE LARGEST COUNTRIES

1. British Empire, 11,450,000 sq. m.
2. Russia (and possessions),
8,500,000 sq. m.
3. France (and possessions),
4,330,000 sq. m.
4. China (and possessions),
4,300,000 sq. m.
5. United States (and possessions),
3,750,000 sq. m.

OCEAN DEPTH AND AREA

The oceans, including the inland seas connected with them, cover about 144,500,000 sq. miles, or 73.39 percent of the total surface.

Ocean.	Greatest depth.	Area
Atlantic,	27,366 ft.	34,000,000 sq. m.
Pacific,	31,000 ft.	71,000,000 sq. m.
Indian,	18,582 ft.	28,000,000 sq. m.
Arctic,	9,000 ft.	4,000,000 sq. m.
Antarctic,	25,200 ft.	7,500,000 sq. m.

The greatest ocean depth is approximately the same as the greatest land height, but the average depth of the sea floor is about 12,000 feet,

while the average land height above the sea is only 2,300 feet. The maximum depth in the Pacific is near the island of Mindanao and that in the Atlantic off the coast of Porto Rico.

POPULATION BY RACES

Division.	Section	Est.	Population.
Mongolian,	Asia		685,000,000
Caucasian,	Europe & Am-		
	erica		650,000,000

Grange Occasions and Topics

Suggestions for Interesting and Profitable Programs. What Wide-Awake Patrons of Many States Are Talking About in Their Meetings Progress and Uplift

Occasions.

Following is a list of occasions observed by some of the most successful Granges in different parts of the country. The terms used are suggestive of appropriate topics and exercises for the meetings:

New Year's night
Lincoln night
Floral night
Patriotic night
Harvest festival
Thanksgiving
Musical night
Neighbors' night
Children's night
Ladies' night
Gentlemen's night
Anniversary—History of our Grange
Grange rally
Surprise evening

Topics

The following topics are suggested for papers, addresses or debates, the wording being changed to suit the purpose and the occasion.

Country life and how it may be improved

What is the greatest farm problem today?

What is the most promising avenue of life activity open to young men?

Development of life insurance and old age pensions

Country life within city limits

Our homes and environments

Health and happiness in the home

Rural recreation

Organization for mutual improvement and entertainment

Country worship

The old, old story—farm help

Country life when I was a boy

Government aid

Federal Farm Loan Banks

New responsibilities of the public in education

Needs of agriculture in our section of the country

Importance of economy in farm life

Wastes of the farm

Beautifying our homes and surroundings

Some reasons for growing flowers

Farm management

Specialties in farming

Diversified farming

Fruit growing for pleasure and profit

Cultivation of small fruits

Poultry raising

What constitutes a successful farmer?

Cause of the vacant farm

Woman as a helpmeet

How to manage a wife, and how to manage a husband

Which is usually the better manager of home finances, husband or wife?

The need of better agricultural and industrial education for boys and girls

What are the most promising avenues of activity open to young men and young women today?

Our agricultural fairs

The ideal dairy herd and its management

Some things that ought to happen in our town during this year

Should farmers work more than ten hours a day?

Why should not the farmer have a voice in making the prices of what he raises and manufactures?

What changes in the crops and modes of cultivation in this locality seem needed at this time?

In what ways are the present game and trespass laws deficient?

The sunny side of farm life

The shady side of farm life

What are the best methods to take at this time to forward planting operations?—early vs. late planting

How can the eastern farmer plan so as best avoid competition from the western farmer?

Should the grange make more use of the agricultural press?

The mission of the grange

How shall we show our interest in the public schools?

Care of the fruit orchard

When is a farmer successful?

Which is the greater drawback to the farmer, lack of capital or lack of method?

Has education a greater influence on the improvement of the people than wealth?

What varieties of flowers give the best results for the least care?

The value of an attractive home in forming character in the young—the boys' room; the girls' room; the living room

Spraying Calendar for

PLANT	FIRST APPLICATION	SECOND APPLICATION
APPLE (For scab, codling moth, bud moth, tent caterpillar, canker worm, BEAN (Anthracnose, leaf blight.)	Spray before buds swell with copper sulphate. When third leaf expands, bordeaux.	Just before blossoms open, bordeaux and paris green. Ten days later, bordeaux.
CABBAGE AND CAULIFLOWER (Worms, aphids)	When worms first appear, kerosene emulsion or paris green.	Repeat the first application when necessary.
CHERRY (Rot, aphids, slug, plum curculio, black knot.)	As buds break, bordeaux; when aphids appear, kerosene emulsion.	When fruit has set, bordeaux and arsenate of lead. If slugs appear, dust leaves with air-slaked lime or hellebore.
CURRENT (Worms, leaf blight.)	Bordeaux before leaves start. At first appearance of worms, paris green.	Repeat with paris green when necessary. Ammoniacal copper carbonate for blight.
GRAPE..... (Fungous diseases, rose-bug, etc.)	In spring when buds swell, bordeaux.	Just before flowers unfold, bordeaux and paris green.
NURSERY STOCK..... (Fungous diseases, San Jose scale.)	When first leaves appear, bordeaux and paris green or arsenate of lead.	Repeat at intervals of 10-14 days through the summer.
PEACH, NECTARINE, APRICOT (Rot, mildew, scab.)	Before the buds swell, bordeaux.	Just before blossoms open, weak bordeaux (2-4-50) and arsenate of lead and curculio.
PEAR (Leaf blight, scab, psylla, codling moth, blister fite.)	As buds are swelling, bordeaux.	Just before blossoms open, bordeaux and paris green. Kerosene emulsion or whale oil soap when leaves open for psylla.
RASPBERRY, BLACKBERRY, DEWBERRY (Rust, anthracnose, leaf blight, saw fly.	Before buds break, bordeaux. As soon as growth begins, bordeaux. Dip plant in bordeaux before setting.	Bordeaux and paris green just before the blossoms open.
STRAWBERRY..... (Rust, leaf blight mildew.)		When fruits are setting, bordeaux.
TOMATO..... (Beetles, blight, and	Soon after planting use bordeaux.	Repeat as soon as fruit is formed. Fruit can be wiped if disfigured by bordeaux.
POTATO (Beetles, blight, and rot.)	Spray with paris green and bordeaux when vines are small.	Repeat before insects become too numerous.

Fruit and Vegetables

THIRD APPLICATION	FOURTH APPLICATION	FIFTH APPLICATION
When blossoms have fallen, bordeaux and paris green.	Eight to 10 days later, bordeaux and paris green.	Use ammoniacal copper carbonate in Sept. for scab if season is wet.
14 days later, bordeaux.	14 days later, bordeaux.	Spraying with bordeaux after pods are half grown will injure them for market.
If plants are heading, use hellebore.	After heads form, use saltpeter for worms, teaspoonful to 1 gallon water; emulson for aphids.	
10-14 days if rot appears, bordeaux. Arsenate of lead for plum curculio.	10-14 days later, weak solution of copper sulphate, 3 oz to 50 gals water.	Repeat after every rain when fruit begins to color.
Bordeaux for blight after fruit is picked.	Use whale-oil soap for the San Jose scale if necessary.	Cut canes close if pests are bad.
When fruit has set, bordeaux and paris green.	2-4 weeks later, bordeaux.	Weak solution of copper sulphate.
For scale, burn or fumigate with hydrocanic acid gas.	Cut out leaf blight as fast as it appears.	Dig all trees that have crown galls.
When fruit is set, weak bordeaux.	As fruit shows color, potassium sulphide, 1 lb to 50 gals water.	Repeat once or twice until fruit is ripe.
After blossoms have fallen, bordeaux and paris green. If necessary, kerosene emulsion or soap.	8-12 days later, repeat third.	10-20 days later ammoniacal copper carbonate.
(Orange or red rust is treated best by destroying the plants attacked in its early stages.)	Spray, after fruit is gathered, with bordeaux.	10-20 days later, repeat.
Bordeaux.	Repeat if weather is moist.	Dig the worst diseased plants.
Repeat first when necessary.	Keep the rotting fruit picked closely.	Clean up infected vines if remedies fail.
Repeat for blight and rot at intervals of 2 or 3 weeks during summer.	Spray with paris green for late bugs.	Dig early if rot is prevalent.

THOROUGHbred STOCK

That is what every good farmer wants. For he knows it pays. This is just as true in poultry as in cows. A mongrel flock of hens does not pay as high a rate of interest as a flock of thoroughbred Rhode Island Reds. Nine years experience with this one breed puts into my command an excellent strain. They have won for type and color wherever shown, and in two seasons on four entries at the New York State Fair won 1st and two 2nd prizes for the best dozen brown eggs in the state. Eggs for hatching and stock for sale in season. Eggs for hatching \$1.00 per 15 and up. Yearling hens \$1.25 each.

WELL DRILLERS

Brady & Torlish, Practical Well Drillers, P. O. Box 156, Voorheesville, N. Y. (See Adv.)

Water Wells, Test Wells for Minerals, Air Holes for Shafts, Etc.

1. Do you know that a dug well, made in the old fashioned way, is a trap for man, beast and vermin?
2. Do you know that it has to be cleaned out two or three times a year?
3. Do you know that it acts as a cesspool or drain for all the surface water for hundreds of feet around?
4. Do you know that it costs more than a drilled well?
5. That the digging of it disfigures your yard?
6. That on account of the water is hardly ever sunk beyond the first surface stream?
7. And that therefore it usually goes dry at the very time of the year you need water the most?
8. Do you know that a DRILLED WELL 6 inches in diameter will afford as much water as a dug well 6 feet in diameter?
9. Do you know that a drilled well NEVER needs to be cleaned out?
10. That, being small, affords no room for stagnant water?
11. That all surface drainage is cased off?
12. That all mice, rats, bugs, worms and vermin are shut out?
13. That in drilling it, you can go through any kind of rock in one-tenth of the time it takes to dig or blast?

Why Farmers Ought to Advertise—and How

The Farmer Finds It Pays to Advertise His Productions Direct to the City Consumer and to His Brother Farmers

This is an age of advertising. It is the most powerful factor in modern business life, and while already some farmers have realized that they can make money by advertising, there are numbers of progressive farmers who have not advertised because they feel they don't know how to take the first step.

But it is really an easy matter to write an advertisement of your farm produce that will sell the goods for you.

How to Write an Advertisement.

First of all, tell the truth. If the article you are advertising is not in first-class condition, don't say that it is, but rather say: "In fair condition."

Second, be brief, but to the point. Read over your adv and see if you could not say the same thing just as well in fewer words. Tell the essential things that a purchaser would be most likely to want to know.

Tell about the *quality*.

Third, be sure to give names, dimensions and prices.

In other words, tell all the things *you* would want to know if you were an intending purchaser. If your article is of a well-known make or has a trade mark or a familiar name by which it is known, be sure to mention that.

Write Just as You Would Talk.

to any one you were trying to sell something to. Never mind the grammar, but say what you actually feel and the grammar will take care of itself, and when you have signed your

full name and address you will be surprised to find what a readable adv. you have written. Some people think careful grammar or big words necessary. Not at all. Just tell your story in a clear straightforward way, so that everyone that reads it will know exactly what you say, and be perfectly honest. If you misrepresent ever so slightly, your customer will feel that he has been ill-used, and nine men out of ten would rather *give* you a dollar than feel they had been *done* out of ten cents. Honesty is not only the *best* policy—it's the *only* policy in advertising. Much better say of your advertised article, "It's in *fair* condition" or "It's been used a *little*," than say, "In splendid condition," or "Never been used."

Display advertising is more profitable for many things than small classified advs. It does cost a little more, but your adv. will stand right out and catch the eye the moment the page is turned. In display advertising you should have two or three words set in large type, so as to attract attention. Usually the name of the article you are advertising should be the largest, and then you can add in a somewhat smaller type a short phrase—just five or six words—that *explains* a little more about your article or makes so strong an appeal to the reader that he will feel as though *he* must buy what *you* are advertising. There you have the foundation for a rattling good adv. that will produce sales if the small text matter fol-

lowing gives, in the fewest possible words *why* your article is different from others, *because* of the way it is made, the conditions under which it is produced, etc. Then give the dimensions, prices, etc.

You Can Tell the Space and Adv. Occupy.

by the following rules. For convenience, most newspapers have adopted what is termed the agate line standard, so they can readily tell the space occupied by any given adv., and the price is figured at so much per agate line.

This line is set in Agate type

It contains seven words, and this is the average number of words contained in any agate line of a single 'newspaper column, although, of course, if the words are short ones, a line may contain nine or ten, while if the words are long, it may contain only five or six, but seven is the average.

It takes 14 of these lines, one below the other, to make an inch in depth, so if you want to write a 1-inch adv, you must limit yourself to 98 words, but of course you will want some of the words displayed in large type as headlines, so you will have to allow for the headlines by subtracting enough words to equal the space occupied by the display headlines. For instance, you want a quarter-inch headline. Now that is equal to four agate lines, so you will have to subtract 28 words from your 98 words, which will leave you but 70 words for your adv. Then if you want another line half as big, you will have to subtract 14 words more, which will leave 56 words, and then it is well to try and condense these 56 words into 40 words, so you can have a little white space, which will set off the display lines to better advantage.

You Can Figure the Cost of Display Advs.

For display ads just decide how much space your adv is to occupy, seven lines to a half inch and 14 lines to a full inch. If you want your adv double column, just multiply by two, that is, 1-inch double column adv contains 2 inches of space, or 28 agate lines. Then multiply the number of agate lines in your adv by the price per line.

We'll Help to Write Your Ads if you will tell us just exactly what it is you want to sell, give us full particulars as to prices, etc.

Low Rates for Classified Advs.

To find the cost of a classified adv in the Farmers' Exchange, Help Bureau and Real Estate Market, you count the number of words, including your name and address, counting each initial and abbreviation as a word, and then multiply the number of words by 6 cents for the American Agriculturist.

Cash must accompany the order for both display and Classified ads.

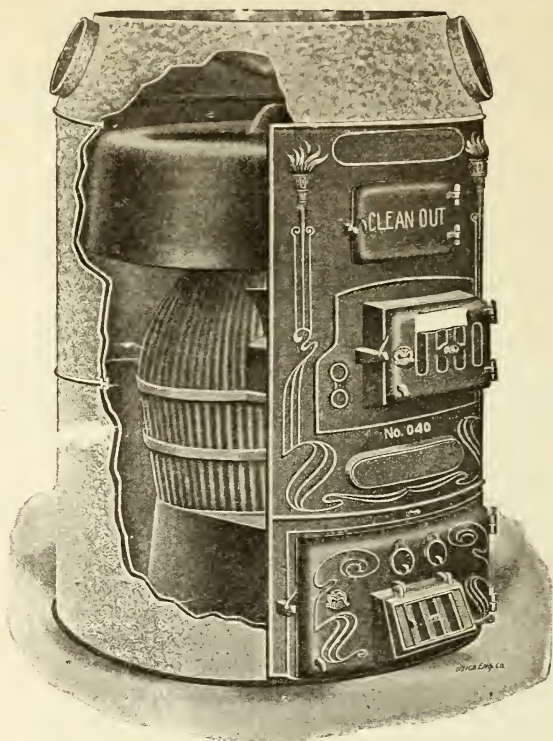

We Guarantee All Our Advertisers.

so before we accept an adv from anyone we require them to give us the full particulars regarding their proposition, which we hold as strictly confidential, and we reserve the right of rejecting any adv for reasons that may appear satisfactory to ourselves. We do not accept any liquor ads, or any objectionable ads of any kind, medical or otherwise. Write to us freely, ask all the questions you want. You will find an advertisement will "move the goods." Address your letters to the Advertising Department.
